# BANK STATEMENT HARDENS MARKET

## Prices Hold Stubbornly Despite Reactionary Tope.

NEW YORK, June 24.-There was some falling off in the volume of trading today, natural to a Saturday during the holiday term, but the market was fair-ly active, maintaining the increased interest which has been demonstrated throughout the latter half of the week. London was a seller of probably 20,000 shares. Western houses, largely Chicago, were buyers of probably a greater amount on balance.

These conditions were the same yesterday, when London sold and Chicago bought somewhere from 10 to 15 per cen of the total dealings. There was little news to inspire any definite trend.

#### Prices Stubborn.

A reactionary tone, begun yesterday afternoon on the general ground that the market had advanced fast enough to becessitate some reaction, was continued today and formed the keynote to the market. Prices held as stubbornly, and the unusual increase shown in the bank statement rallied the active list at one time quite sharply.

London quotations averaged probably

The tendency was to harden through the day, but the final dealings were, on the whole, about the same as at the opening. The principal upward movement was that of Baltimere and Obles. ment was that of Baltimere and Ohio, and was based on the expectation of July dividend at the rate of 5 per cent which rate, by the way, was clearly predicted by the directors six months

Reading was in good demand, although opening and closing ¼ lower.

### Pittsburg Coal Preferred Off.

Among the specialties the most conspicuous movement was that of Pitts-burg Coal preferred, which lost 51/4 per cent, making about 14 per cent in all since its decline began somewhat over a week ago. The Steel stocks ruled slightly lower throughout.

Union Pacific was fairly well sustained, and Amalgamated Copper was The bond dealings were small, and the

tone of the bond market indifferent. Reaction in the Japanese issues continued at only a nominal loss.

Government bonds were unchanged.

CHICAGO, June 24.—Wheat bears had the advantage today of better weather for serving the crop in the winter wheat belt and rather less rain in the Northwest, although from the latter source came numerous complaints of more than enough. There were losses for the day of 1½c for July and ½c for September.

From St. Louis and Toledo came reports of freer offerings of new wheat at considerably under what millers have recently had to pay. These had their influence in bringing about the decline and keeping it going.
